**SCHICK**  
create the future

# └ Protect SH-D – the one of a kind LED swan neck lamp with a protective glass pane

## Maximum illumination and protection

Schick Dental proudly presents the └ Protect :  
A world first workspace illumination and a protective  
glass pane fixed on a swan neck. Highly efficient  
SMD-LED's ensures an exceptional illumination of your  
working area without irritating shadows.

You can adjust the protective glass pane in each position  
due to the ingenious design of the adjustable and robust arm.  
The table clamp and the table mount ensure simple  
installation of the └ Protect SH-D on your workstation.

└ Protect SH-D offers a lot of advantages:

- Individually adjustable
- Flexible positioning due to the table clamp and table base
- Bright and shadow-free illumination
- Long-lasting and energy-saving SMD-LED's
- Special protective glass pane
- Big field of vision
